# Switching to Comcast Business

## How phone transfers work

It's easy to switch to Comcast Business. Here's what you can expect during the phone transfer process.

### 1. Start your request

Select your options to begin your phone number transfer inquiry. It's quick and easy.

### 2. Schedule Installation

Set up a time that works best for you. Our technician will get your system ready for activation.

### 3. Transfer completes

That's it! We'll work behind the scenes with your current carrier to complete your phone transfer. If anything comes up, we'll contact you.

## A few things to keep in mind

Do not cancel your current service until the transfer process is complete. There is also no need to tell your current carrier of your plans to switch.

Data from texts, call forwarding, and voicemail, may not transfer over. Save any important information elsewhere before the transfer is complete.

Activation happens at the time of installation and should only take a few minutes per line. To help avoid service interruption, ask our technician for overnight activation.
